PROFESSIONAL SUMMARY

Aspiring software professional with hands-on experience in web development and data analytics. Strong foundation in programming, problem-solving, and modern web technologies with the ability to adapt and work collaboratively in team environments. Seeking a software development role to contribute technical skills and grow in the field of software engineering.

EDUCATION

Thiagarajar College of Engineering

B.Tech in Information Technology | CGPA: 7.55/10

Madurai, India

2021 – 2025

TECHNICAL SKILLS

Programming Languages: Java

Frontend Technologies: React.js, JavaScript, HTML, CSS

Backend Technologies: Express.js, Node.js

Database: MongoDB

Tools & OS: Linux, WinSCP, PuTTY

Additional Skills: Agile Methodologies, Adaptability, Cross-Functional Collaboration, Problem Solving

INTERNSHIPS

Yalimart

Data Analytics Intern – Power BI

Madurai, India

Dec 2023

- Developed interactive Power BI dashboards to visualize business KPIs and operational performance metrics.
- Analyzed structured datasets and generated insights to support data-driven business decision-making.
- Performed data cleaning, validation, and reporting to improve dashboard accuracy and readability.
- Created visual reports using charts, slicers, and filters for simplified business analysis and reporting.

PROJECTS

E-Commerce Web Application | React.js, JavaScript, HTML, CSS

- Developed a responsive multi-page e-commerce web application using React.js and modern frontend technologies.
- Implemented product listing, category filtering, product search, and navigation functionalities.
- Built cart operations including add, remove, increase, decrease, and quantity update features.
- Managed cart persistence using localStorage to preserve user-selected products across browser sessions.
- Designed Home, Cart, Profile, and Checkout pages using React Router for seamless navigation and responsive UI.
- Improved layout consistency using Flexbox, Grid, and reusable React components across different screen sizes.

Call Center Dashboard | Power BI

- Designed an interactive Power BI dashboard to track total calls, response time, and handling metrics.
- Visualized call trends using charts and maps based on state, channel, sentiment, and call center.
- Implemented dynamic filters and slicers for responsive and detailed business data analysis.
- Presented key insights using KPIs, charts, and filters to support business reporting and performance monitoring.

CERTIFICATIONS

- Infosys Springboard – Java Programming Fundamentals
- edX – Database Management System
- IBM – Introduction to Cloud
